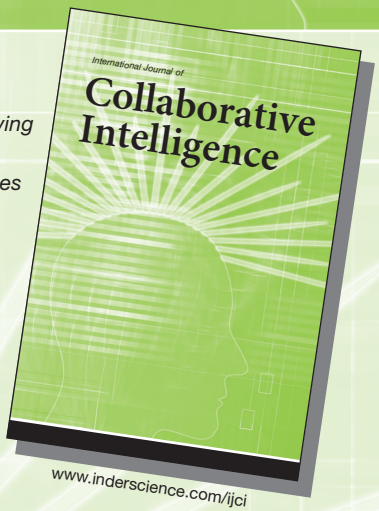
# Scope of the Journal

ISSN: 2051-7122 (Print), ISSN: 2051-7130 (Online)



*Collaborative intelligence is an interdisciplinary subject involving topics from cognitive science, neuroscience, intelligence science and information science, among others. IJCI proposes and fosters discussion on the development and evolution of artificial intelligence and machine intelligence. This perspective acknowledges the nature of the research in collaborative intelligence.*

**Contents:**
IJCI publishes original papers, review papers, technical reports, case studies and book reviews. Special Issues devoted to important topics on collaborative intelligence will occasionally be published.

**Topics covered include:**

- Cognitive science
- Neuroscience
- Information science
- Intelligence science
- Artificial intelligence
- Machine intelligence
- Human-machine cooperation
- Machine learning and pattern recognition
- Data mining and knowledge discovery
- Swarm intelligence and optimisation
- Computational intelligence
- Granular computing and cloud computing
- Integration of aspects of intelligence

## Not sure if this title is the one for you?

Visit the journal homepage at **www.inderscience.com/ijci** where you can:

- Read about the journal's aim, scope and readership
- View editorial board details
- Find out about calls for papers and how to submit
- Find out about subscription options, in print, online or as part of a journals collection

You can order online at **www.inderscienceonline.com** or download an order form from **www.inderscience.com/subform.**

This title is part of the Computing and Mathematics Collection (see **www.inderscience.com/mb**). For library collection subscriptions or for a free institutional online trial, please contact **subs@inderscience.com.**
