# Scope of the Journal

ISSN: 1753-0563 (Print), ISSN: 1753-0571 (Online)

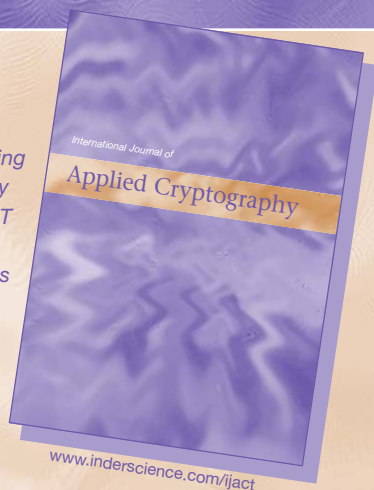

*Information security is important to the rapid growth of the Internet and advances of computer systems. However, existing journals on information security mainly focus on either theory or specific areas of information and computer security. IJACT aims to introduce new ground between these two areas. It proposes and fosters discussion on cryptographic algorithms and protocols that are directly applicable.*

## Contents:

IJACT publishes original research papers. Special issues devoted to important topics in applied cryptography will occasionally be published.

## Topics covered include:

- Anonymity
- Authentication
- Broadcast encryption
- Ciphers
- Cryptanalysis
- Data security
- Digital cash
- Digital signatures
- E-auction and e-commerce
- Encryption
- E-gambling
- E-voting
- Key distribution
- Identification and identity-based cryptography
- Online fraud and web security

## Not sure if this title is the one for you?

Visit the journal homepage at [www.inderscience.com/ijact](http://www.inderscience.com/ijact) where you can:

- View sample articles in full text HTML or PDF format
- Sign up for our free table of contents new issue alerts via e-mail or RSS
- View editorial board details
- Find out about how to submit your papers
- Find out about subscription options, in print, online or as part of a journals collection

You can order online at [www.inderscienceonline.com](http://www.inderscienceonline.com) or download an order form from [www.inderscience.com/subform](http://www.inderscience.com/subform).
