

International Journal of

Biometrics

Editor-in-Chief:

Prof. Dr. Khalid Saeed

Visit www.inderscience.com/ijbm
for more information and sample articles

Scope of the Journal

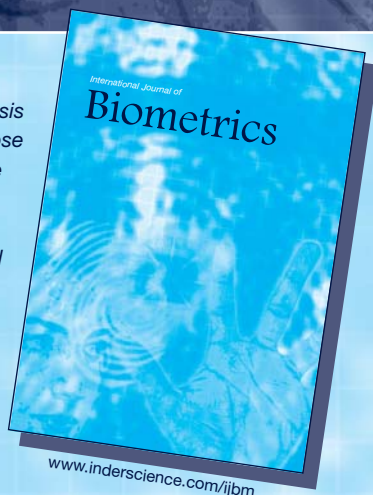

ISSN: 1755-8301 (Print), ISSN: 1755-831X (Online)

Biometrics and human biometric characteristics form the basis of research in biological measuring techniques for the purpose of people identification and recognition. IJBM addresses the fundamental and emerging areas in computer science that deal with biological measurements. It covers both the theoretical and practical aspects of human identification and verification.

Contents:

Biometrics and human biometric characteristics form the basis of research in biological measuring techniques for the purpose of people identification and recognition. IJBM addresses the fundamental and emerging areas in computer science that deal with biological measurements.

It covers both the theoretical and practical aspects of human identification and verification.

Topics covered include:

- Age and gender recognition
- Anthropology/physical anthropology
- Audio-visual
- DNA, genetic inheritance
- Ear, face and iris recognition, retina
- Emotion detection
- Facial thermograms
- Fingerprints and palm prints
- Gait recognition
- Hand geometry, hand veins
- Kansei engineering
- Keystroke dynamics and mouse gestures
- Odour and taste
- Signature
- Voice

Not sure if this title is the one for you?

Visit the journal homepage at www.inderscience.com/ijbm where you can:
