Scope of the Journal

ISSN: 1751-200X (Print), ISSN: 1751-2018 (Online)

With the business environment becoming global, complex and rapidly changing, organisations and companies will need new business models, strategies, and systems to compete effectively and efficiently in their respective field. IJBSR is a refereed, multidisciplinary journal for bridging the latest advances in business and systems research. It provides an international forum for presenting authoritative references, academically rigorous research, and case studies. It publishes well-written and academically validated manuscripts in both theoretical development and application research.

Topics covered include:

- Globalisation, business models/strategy/systems/infrastructure
- Strategic management/systems, outsourcing/offshoring
- Enterprise systems, business processes, systems/change management
- E-commerce, virtual enterprises/communities
- Knowledge management, organisational learning, value-based management
- Supply/demand chain management, production/operations systems
- Big data, data mining/warehousing, business intelligence
- Internet of Things, cyber-physical systems
- Information integration, IT governance/security, IS organisation
- Service-oriented architecture, enterprise service bus, service-component architecture
- Sustainable business, innovation management
- Decision support, CRM, trust, cross-cultural issues
- Technologies/standards, technopreneurship management
