Scope of the Journal

ISSN: 1752-3583 (Print), ISSN: 1752-3591 (Online)

IJDSDE is a international journal that publishes original research papers of high quality in all areas related to dynamical systems and differential equations and their applications in biology, economics, engineering, physics, and other related areas of science. Manuscripts concerned with the development and application innovative mathematical tools and methods from dynamical systems and differential equations, are encouraged.

Contents:

IJDSDE publishes original peer-reviewed papers which include research papers, comprehensive survey articles, conference reports and book reviews within the whole field of dynamical systems and differential equations, and it will continue to provide information on the latest trends and developments in this ever-expanding subject. Special Issues devoted to important topics on dynamical systems and differential equations and applications will occasionally be published.

Topics covered include:

- Theories and general methods in dynamical systems
- Partial differential equations
- Ordinary differential equations
- Functional differential equations
- Impulsive differential equations
- Stochastic differential equations
- Differential equations in abstract space
- Difference and partial difference equations
- Dynamic equations on time scales
- Integral and integral differential equations
- Fractional differential equations
- Applications in biology, economics, engineering, physics, and related areas

Not sure if this title is the one for you?

Visit the journal homepage at www.inderscience.com/ijdsde where you can:

- View sample articles in full text HTML or PDF format
- Sign up for our free table of contents new issue alerts via e-mail or RSS
- View editorial board details
- Find out about how to submit your papers
- Find out about subscription options, in print, online or as part of a journals collection

You can order online at www.inderscience.metapress.com or download an order form from www.inderscience.com/subform.

This title is part of the Computing and Mathematics Collection (see www.inderscience.com/cm). For library collection subscriptions or for a free institutional online trial, please contact subs@inderscience.com.
