Scope of the Journal

ISSN: 2050-6988 (Print), ISSN: 2050-6996 (Online)

IJDSS establishes an international state-of-the-art knowledge platform in the field of decision support systems (DSS), addressing all underlying research developments.

Acknowledging the singularities of modern global business environment, this research vehicle seeks to significantly improve current DSS technologies and decision information frameworks by publishing novel and high-quality theoretical or empirical contributions. IJDSS shapes its content by the research directions and motivation of those involved both in academia and industry.

Topics covered include:

- Artificial intelligence and DSS
- Business Intelligence & big data analytics
- Cognitive sciences
- Collaborative decision making
- Data warehousing and online analytical processing
- Decision engineering
- DSS foundations and development
- Electronic commerce
- Executive support systems and workflow management systems
- Multicriteria DSS
- Operational research and management science
- Organisational DSS
- Spatial DSS
- Relevant DSS applications in areas other than those mentioned above
- Web-based and mobile DSS
