IJEP is a refereed journal providing an international forum for the field of environment and pollution. One of three key journals (along with IJETM and IJGEnvl) which together offer complete coverage of key environmental issues, it addresses medium-term challenges involving scientific prediction, modelling and assessment, and social and economic policy areas.

Contents:

IJEP publishes original and review papers, technical reports, case studies, conference reports, management reports, book reviews, and notes, commentaries and news. Contribution may be by submission or invitation, and suggestions for special issues and publications are welcome.

Topics covered include:

- Review and assessment of policies
- Strategy for policy making
- Formulation of national/international environmental protection policy
- Comparative legal aspects of pollution
- Assessment of risks from water, soil and air pollution; effective and viable remedies
- Protection of soil and groundwater
- Ecosystem research
- Waste disposal strategies
- Ecological impact of pollutants
- Clean technologies
- Technological hazards
- Evaluation of environmental risk and safety
- Environment and sustainable development
- Environmental education and training
