Scope of the Journal

ISSN: 1743-4955 (Print), ISSN: 1743-4963 (Online)

IJEnvH is a fully refereed journal that provides an international forum for the development of knowledge in the multidisciplinary research field of environment and health and related subjects, with emphasis on economic, managerial and technological issues. IJEnvH's scope is broad, encompassing several interdependent disciplines including sustainability, environmental management, pollution monitoring and occupational health. IJEnvH aims to provide policy and managerial guidance to decision makers and is also a valuable teaching resource.

Contents:

IJENVH publishes full original and review papers, short communications and mini-reviews, technical reports, case studies, book reviews, and notes commentaries and news. IJENVH also hosts Conference Proceedings and abstracts within its scope. All contributions may be freely submitted as well as called by invitation. The Editors strongly encourage suggestions and proposals for thematic special issues.

Topics covered include:

- Sustainability and sustainable development
- Impact of pollutants on the environment and human health
- Green technologies, circular economy
- Corporate sustainability and social responsibility (CSSR)
- Ecosystem protection, restoration and recovery
- Environmental and health risk assessment
- Health economics
- Environmental management
- Analytical aspects of environmental and health monitoring
- Bioindicators, biomarkers and biosensors
- Indoor pollution, professional risks and occupational exposure
- Environment and health legislation and its implications for policy making
- Bioethical issues
- Sport, physical exercise and health
