for more information and sample articles

Scope of the Journal

ISSN: 1740-0562 (Print), ISSN: 1740-0570 (Online)

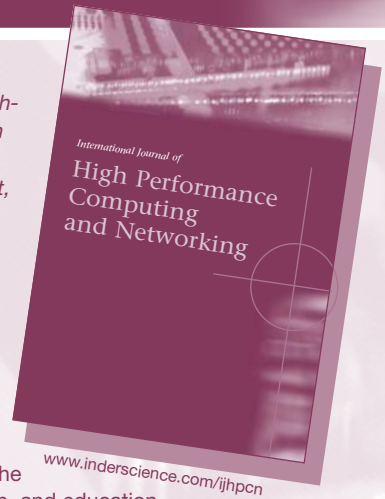

IJHPCN addresses the most innovative developments in high-performance computing and networking such as information and system architectures, grid- and web-based information management and infrastructures, data storage, management, analysis and visualisation, advanced networking with applications, scalable parallel computing, cluster and grid computing, distributed systems, and high performance scientific and engineering computing with applications.

Contents:

IJHPCN provides an international forum to report, discuss and exchange experimental or theoretical results, novel designs, work-in-progress, experience, case studies, and trend-setting ideas. Papers should be of a quality that advances the state of the art in the field, bringing together the latest advances in technology, science, research, application, and education, and stimulating future trends in the areas.

Topics covered include:

- Hardware/software support
- Architecture, compilers, hardware, tools
- Programming environments, languages, algorithms
- Operation system support, I/O, memory issues
- Parallelisation, scheduling, load balancing
- Problem solving, performance modelling/evaluation
- Large-scale workflow management
- Cluster, grid, peer-to-peer, GPU, multicore and cloud computing
- Virtualisation technologies
- Web and service computing, social computing, Internet of Things
- Energy efficient computing infrastructure
- Complex computing system infrastructure management
- Autonomic computing; data management/distributed data systems
- Big data infrastructure, storage and computation management
- Advanced and next-generation networking technologies

Not sure if this title is the one for you?

Visit the journal homepage at www.inderscience.com/ijhpcn where you can:

- View sample articles in full text HTML or PDF format
- Sign up for our free table of contents new issue alerts via e-mail or RSS
- View editorial board details
- Find out about how to submit your papers
- Find out about subscription options, in print, online or as part of a journals collection

You can order online at www.inderscience.metapress.com or download an order form from www.inderscience.com/subform.

This title is part of the Computing and Mathematics Collection (see www.inderscience.com/cm). For library collection subscriptions or for a free institutional online trial, please contact subs@inderscience.com.
