# Scope of the Journal

ISSN: 2056-6549 (Print), ISSN: 2056-6557 (Online)

*The world faces many environmental, developmental, social and health challenges. These include ageing societies, the digital divide, poverty, climate change, energy efficiency and security. There is an ever-increasing need to find solutions to such complex problems. Technology today is evolving at an extraordinary pace, changing the way we live and work. IJHT addresses research into the responsible use of advanced technologies which offer concrete ways to improve the life and society of people worldwide.*

## Topics covered include:

- Smart grid/big data analytics
- Cloud computing/dependable and secure computing/internet computing/mobile computing
- Internet of things/green technologies
- Cryptography and network security/cyber-physical systems/industrial cybersecurity/security of SCADA
- Ubiquitous computing and communication/broadband technology
- Aeronautical telecommunications networks/SDN
- Wireless sensor networks/meshed mobile communication networks/5G/LTE
- Smart connection factories/manufacturing/industrial electronics
- Robotics and automation/engineering standards/frugal innovation
- Medical technology/intelligent transportation technology
- Nanotechnologies
- Photonics technology/optics/laser
- Imaging and spectroscopy/computational electromagnetic
- Machine learning/modelling and simulation/computational biology
- Applied PDE, difference equations, stochastic process, queuing, Dijkstra algorithm applied to technologies

## Not sure if this title is the one for you?

Visit the journal homepage at [www.inderscience.com/ijht](http://www.inderscience.com/ijht) where you can:

- Read about the journal's aim, scope and readership
- View editorial board details
- Find out about calls for papers and how to submit
- Find out about subscription options, in print, online or as part of a journals collection
