

Journal of

Design Research

Scope of the Journal

JDR is an interdisciplinary journal, emphasising human aspects as a central issue of design through integrative studies of social sciences and design disciplines. Originally published as an electronic journal publishing articles including multimedia applications and hence allowing visual knowledge transfer, it is now also available in print.

Contents

JDR publishes original papers, review papers, case studies, conference reports, book reviews, notes, and commentaries. Special Issues devoted to important topics in design will occasionally be published.

Subject coverage:

JDR welcomes papers covering theories, models and actual products from related design areas, including engineering, architecture, industrial design and planning. Recent topics covered by JDR include:

- Expertise in design
- Design learning strategies and design pedagogy
- Design as a social process
- Gaming and simulation in design
- Designing user interfaces
- The role of visual techniques in the design process
- Design tools
- Sustainability
