Title of event: Trading Show New York 2014

Organizer: Terrapinn Inc

Start date: 10/08/2014

End date: 10/08/201

Short summary:

The Trading Show New York provides unparalleled opportunities to network and do business with top trading firms, quant funds, end investors, banks, brokers, and technology providers.

By exploring the overlapping issues of quant investing, electronic trading, SEFs and big data for finance, The Trading Show New York truly has something for everyone.

It is the one-stop shop for the entire trading community!

Detailed summary:

The Trading Show New York provides unparalleled opportunities to network and do business with top trading firms, quant funds, end investors, banks, brokers, and technology providers.

The Trading Show New York has 4 distinct areas of focus:

1. Quant World: new ideas, risk strategies and modeling techniques
2. Automated Trading: innovative trading techniques
3. Big Data in Finance: strategies and innovation in data analytics, storage and infrastructure
4. SEFs: looking at the potential effects of recent regulatory changes

With so much going on under one roof, you can focus on the sessions that really matter to your business!

Here are 10 reasons to attend:

- Debate the fairness of speed markets
- Determine whether to build or buy technology
- Find out how to build networks, achieve latency and respond to a crisis
- Network with top trading firms
- Explore new machine-learning techniques
- Quantify how long it takes for a trader to recover from a loss
- Navigate emotional rational behavior

- Assess whether risk parity is still viable
- Uncover new strategies to compare managers with different track records
- Use data analytics to uncover hidden value in social media

Venue: Three Sixty°, Tribeca

Location (city and country): New York City, US
