2014 saw an unprecedented surge in defence requirements and spending commitments in Eastern Europe. The need for greater domestic security has yet again meant defence forces in the region are looking to the armoured vehicle when ensuring their ground operations and maneuverers are set up for success.

Unlike other events **Future Armoured Vehicles Eastern Europe** is designed to unite armoured vehicle procurement and technology experts with one goal, to enhance existing and future land forces capability through the effective deployment of military vehicles. At no other event in 2015 will you be able to meet such a well-rounded and unique set of military vehicle experts all present with one goal in mind-to advance their technical knowhow and increase the effectiveness of their new and ongoing programmes.

Supported by Inderscience Publishers.

SMi Group are delighted to offer a special £150 discount (on top of the currently advertising price) to all subscribers of Inderscience Publishers' magazines. Use this voucher code – AVTAFINPUB150 when booking online at www.futurearmouredvehicles.com/2015IndersciencePub
