

9th Annual
European Refining Summit

September 17-18, 2015
Brussels, Belgium

Returning to Brussels for the ninth year running time at the spectacular Le Plaza Hotel, *Platts 9th Annual European Refining Summit* – the must attend strategic industry event – is back on September, 17-18, 2015.

WHY ATTEND?

- **Investigate** the current state of play for the refining industry: What should happen next?
- **Debate** oil price and improved margins versus overcapacity and rationalization – what's the reality?
- **Assess** the latest challenges from Russia, Middle East, Africa, Asia, US and Latin America
- **Examine** the implications of the latest environmental and energy regulations
- **Explore** jet fuel, diesel, gasoline, LPG, naphtha and bunker fuel developments, opportunities and challenges
- **See** how relationships between petrochemical companies and refiners can be tightened

Platts 9th yearly European Refining Summit is back to debate all that matters for today's **refiners, traders, logistics and solution providers, regulators and other key industry stakeholders** once again.

In what will be an even higher speaker faculty and with greater networking opportunities over two full days, **2015's European Refining Summit** returns to **Brussels** on **September 17-18** to debate whether the industry should continue to rationalize despite recent margin improvements arguably caused by the fall in the oil price.
