

7<sup>th</sup> annual Air Mission Planning  
20-21 April 2016  
Holiday Inn Regents Park, London, UK  
[www.airmissionplanning.co.uk/inderscience](http://www.airmissionplanning.co.uk/inderscience)  
Tel: +44 (0) 207 827 6197, [jrotar@smi-online.co.uk](mailto:jrotar@smi-online.co.uk)

Air mission planning remains the core competence that underpins air operations for our flight crews and airmen. However, fuelled by continued advances in mission support technology and the unique demands of the operational environment, the expectations and practices of mission planning continue to adapt. A shift toward fully digitalized air mission planning, with the ability to swiftly plan, flexibly react and comprehensively de-brief now sets the standard for the modern operator.

Building on the successes of our previous **Air Mission Planning** meetings, next year's event will bring together those at the forefront of the domain, ranging from leading operators, system integrators, technical engineers, chief scientists and the leading industry providers. Air Mission Planning 2016 will explore the strategies and technologies required to develop next generation capability in this vital area.

**Supported by Inderscience Publishers.**

**SMi Group are delighted to offer a special £100 discount (on top of the currently advertising price) to all subscribers. Use this voucher code – SMI5PRS - when booking online at [www.airmissionplanning.co.uk/inderscience](http://www.airmissionplanning.co.uk/inderscience)**

#### **Benefits of attending Air Mission Planning 2016:**

- Deliberate the requirements of the contemporary operational environment
- Develop advanced strategies for the planning process
- Explore Interoperability for coalition operations and joint fires
- Hear the very latest technological developments from research and industry, that are enhancing mission support, reducing workload and improving combat effectiveness
