

Largest and Most Respected Power Show in The Greater Mekong

The annual GMS is the largest and most respected power show in the Greater Mekong Subregion, making it a well-known and trusted brand. The event boasts both a strategic conference and a large exhibiting floor which provides a premier platform for public and private stakeholders to engage in discussions around the future of the Mekong's energy utilities, giving stakeholders the opportunity to benchmark their operations, achievements and challenges against their peers and seek suppliers who are looking to gain access to projects across the region.

The 3rd GMS Power Week takes place over 3 days, consisting of dedicated pre-day seminars and heated main-day conferences. In addition, practical project showcase will be for the time time involved in the programme, introduced by high level delegations from Ministries, Utilities and Regulators from across the region.

300+ Conference participants

30+ Exhibiting opportunities

35+ Speakers
