The SMi Group is proud to announce the 7th annual International Port Security Conference. The event will be held in London on the 1st and 2nd of June 2016.

Hosted over two days, hear from 9 international ports from across 4 continents including: Bremen, Dover, Helsingborg, Liverpool, Long Beach, Mombasa, Rotterdam, Santos and Vigo.

The conference aims to bring together key decision makers in the industry to discuss modern methods of port security and provide effective learning experiences for all delegates through the carefully selected expert speaker line up.

Interacting with delegates from across the globe and hearing from industry leading experts will ensure delegates are up-to-date with high priority information that enables you to best secure your seaports, civilians and means of trade.

Topics to be discussed include terrorism, cyber security, resolving external threats, optimisation of technological systems, regulatory systems and change and case studies featuring some of the busiest ports from across the world. Our diverse range of topics will allow delegates to learn best practices for port security and understand further how other ports are resolving core challenges.
