

Returning for the 10th time and following on from the major success of previous events, SMi Group's Clinical Trial Logistics event will be taking place in London on 18-19 May 2016 with leading pharmaceutical companies onboard.

With the impending implementation of the new EU Clinical Trials Regulation in 2017, there has been more change in the regulatory landscape of clinical trial logistics. SMi's Clinical Trial Logistics will provide the perfect platform to raise and discuss the challenges associated with these changes featuring key updates from the MHRA. The two-day conference will also showcase insights and case studies from leading pharmaceutical companies including Daiichi Sankyo, GlaxoSmithKline, Sanofi, Norgine, Lundbeck, Takeda, etc.

Visit the event website for more information at <http://www.clinical-trial-logistics.com/inderscience>
