Book by 29th February and save £400

Book by 31st March and save £200

As Central and Eastern Europe continue to be a key focus for defence equipment upgrades, the rotary fleet remains a key asset in both domestic and international military operations and therefore a focused conference is essential to ensure continued advancement of capability, equipment and joint interoperability.

Unlike other events Helicopter Technology Eastern Europe 2016 is designed to unite military helicopter procurement and technology experts with one goal, to enhance existing and future air support operation across air, land and sea.

Last year's event was sold out; we would advise you to register early to secure your participation.

Supported by Inderscience Publishers.

SMi Group are delighted to offer a special £100 discount (on top of the currently advertising price) to all subscribers. Use this voucher code – SMI8S9N - when booking online at <http://www.helicopters-easterneurope.com/inderscience>
