

IGas, Committee on Climate Change & Schlumberger Confirmed as Speakers for UK Shale Gas Summit

UK Shale Gas Summit 2016 -11th-12th October, Manchester, UK

Key representatives from across the UK shale gas industry, will meet in Manchester this October for the fourth annual UK Shale Gas Summit (formerly known as E-SGOS). This year's summit has taken a UK focus and will address the role for shale gas in the new energy infrastructure, considering the latest developments, strategies and opportunities within UK unconventional exploration & production.

Sponsors & Partners

The UK Shale Gas Summit is delighted to be hosting the event with sponsors from across the shale industry; *Schlumberger, Tesla Exploration, Metasphere* and *Rain for Rent International UK*. Additionally, the summit has the profound support from partners across the energy sector; including *Eversheds* who will be participating in the Planning Panel on Day 1.

Excellent Networking

UK Shale will also host networking throughout the course of the day, with lunch, networking breaks and evening drinks. Bringing together national & local government, investors, contractors, operators and new entrants from the 14th onshore licensing round with service and solution providers.

Exciting Speaker Line-up & Conference Agenda

Specific attention will be afforded to the status of the current planning system, the path to exploratory drilling, supporting the future supply chain, tiers of public engagement, baseline monitoring, health & safety regulation and energy security.

Speakers will include:

Environment Agency
