

Unmanned Systems for Utilities Conference Details:

**Name:** Unmanned Systems for Utilities

**Dates:** April 26-27, 2017

**Venue:** Atlanta, GA

**Website link:** <http://bit.ly/2kcwryd>

**Description:** This interactive conference will provide you an intensive best practice environment and ample discussion to network and benchmark with your peers with responsibilities in UAS program management, T&D operations, emergency technology, and restoration. Hear from **Southern Company Services, ComEd, Federal Aviation Administration, Alabama Power Company** to deploy unmanned systems to optimize maintenance programs and minimize operational risks.
