

Oxford Global is proud to present the **Microbiome Discovery and Development Congress** taking place on 12 – 13 June 2017 in Berlin, Germany. This exciting conference showcases world-class speakers discussing novel strategies in microbiome research, challenges of commercialising the microbiome and latest therapeutic trends. It will bring together over 100 senior industry experts and key opinion leaders in microbial research.

**Including 3 Interactive Streams:**

- Microbiome Discovery: Novel Strategies and Technologies
- Commercialising the Microbiome
- Therapeutic Potential of the Microbiome

The two-day congress will focus on the therapeutic potential of the microbiome, with exciting new biotech companies presenting their early work on developing novel therapeutics. Studies of the Gut Microbiome have dominated research and clinical studies, focussing particularly on C. difficile and inflammatory. Other areas of microbiome research, and the latest trends in Dermatology and Women's Health will also be presented.
