

Offshore Wind Operations and Maintenance – Excelling the Performance

Perceiving the need of the Offshore Wind industry, BIS Group s.r.o., a leading business intelligence service group, announces the 2nd Annual Offshore Wind Operations and Maintenance Forum taking place on 30th – 31st of May 2017, in Holiday Inn London - Stratford City, London, UK.

The Forum will give the full update on the O&M effective practices and their perspectives, providing industry developers new tools and techniques to improve the performance. Attendees will share the experience of their current approaches and know-hows and discuss the future ways of further O&M costs reduction.

The event will cover such topics as:

- *Offshore Wind Farm O&M and Logistics Modelling*
- *Realising Operational Cost-Savings with the Effective use of Probabilistic Marine Forecasts*
- *O&M Insurance for Offshore Wind Farms*
- *Effective Condition Monitoring for a Large Fleet of Wind Turbines*
- *Asset Maintenance; A Reliability Centered Approach*
- *Etc.*

Main market players will share their ideas and experience throughout 2-day case studies, interactive plenaries, workshops, networking & experience exchange.

The small-scale nature of the event, expert speakers and balanced spectrum of attending companies will ensure extensive networking and business opportunities. All attendees have an opportunity for deep involvement and can actively participate in the discussions in order to overcome relevant challenges and have influence on the overall industry development.

About BIS Group s.r.o.

We are the Business Intelligence Services company based in Europe. We believe that knowledge is the most powerful asset, especially, in the context of time and money. This inspires us to work with top professionals, global leaders and experts active in Oil & Gas, Energy, Renewable Energy, Automotive, Supply Chain and Project Management.
