

Pharmaceutical Microbiology East Coast

13th & 14th November 2017

Renaissance Woodbridge Hotel, Iselin, New Jersey, USA

www.microbiologyeastcoast.com/inderscience

Sponsored by Charles River

Drawing on from the huge success of SMi's Pharmaceutical Microbiology event series, SMi is delighted to announce the launch of Pharmaceutical Microbiology East Coast. Being the eighth in its series, this event will take place in New Jersey, USA, on November 13th and 14th 2017. Aimed at Microbiologists, Quality Control and Quality Assurance Managers, Pharmaceutical Microbiology East Coast 2017 will address the best practices for rapid microbial and sterility testing and tackle the challenges of contamination control.

Pharmaceutical Microbiology East Coast has been produced with a vision of promoting the field of microbiology, and has been tailored to address the current issues and opportunities the industry faces every day. Topics of interest will include:

- The role of microbiology in pharmaceutical stability programs
- Deciphering the host-microbe interaction
- Benefits of real-time monitoring of airborne viable microorganisms
- Current expectations for a complete environmental monitoring program
- Quality control strategy on low endotoxin recovery (LER)
- Implementation of a global electronic intervention logging system

Featured Speakers for 2017:

- **Jeanne Moldenhauer**, Vice President, **Excellent Pharma Consultant**
- **Andrew Bartko**, Research Leader, **Battelle Memorial Institute**
- **Brian Hubka**, CEO, **BGH International**
- **Shawn Sweeney**, Senior Process Development Manager, **Charles River**
- **Frederic Ayers**, Consultant Scientist, Sterility Assurance, **Eli Lilly And Company**
- **Geeta Singh**, Pilot Plant Technical Specialist III, **Genentech**
- **Somduttan Saha**, Post-Doctoral Scientist, **Glaxosmithkline**
- **Shahram Lavasani**, CEO, **ImmuneBiotech AB**
- **James Hauschild**, Principal Scientist, **Johnson & Johnson**
- **Tony Cundell**, Principal Consultant, **Microbiological Consulting, LLC**
- **David Huang**, Chief Medical Officer, **Motif BioSciences**
- **Tony Van Hoose**, Director, Sterile Technologies **Expertise, Sanofi**
- **Jim Polarine**, Senior Technical Service Manager, **STERIS Corporation**
- **Joseph Chen**, Executive Director, CMC Quality Control, **Ultragenyx Pharmaceutical**

Exclusive highlights in 2017:

- Discuss training of media fill inspection operators with **Sanofi**
- Decipher the Host-Microbe interaction with **GlaxoSmithKline**
- Hear **Eli Lilly's** keynote address on Implementation of a global electronic intervention logging system
- Understand the role of microbiology in pharmaceutical stability programs with **Microbiological Consulting, LLC**

- Delve into the current expectations for a complete environmental monitoring program with **Excellent Pharma Consulting**

Other event highlights include TWO exclusive post-conference interactive workshops carefully selected to enhance your conference experience and encourage personal and professional development. Places are strictly limited to ensure optimal learning for attendees.

Workshop A – Navigating the requirements of a modern QC Microbiology Laboratory

Wednesday 15th November 2017 | 08.30 – 12.30

Workshop Leaders: **Quality Executive Partners, Inc.**

Workshop B – Contamination Control in Cleanrooms

Wednesday 15th November 2017 | 13.30 – 17.30

Workshop Leader: **STERIS Corporation**

Early birds available!
