

Smart Solar PV – Harnessing Data, Optimizing the Performance

BIS group s.r.o. announces the **Smart Solar PV Forum – Data Analysis and IoT** taking place on 26th – 27st October 2017, in Wyndham Garden Berlin Mitte, Berlin, Germany.

The event will be focused on Solar Power industry perspectives in terms of the successful Big Data use and forefront analysis techniques implementation, showcasing connectivity improvement as a key to the flawless production and market share growth.

The Forum will provide the ways to improve existing strategy through data-driven statistical trends, minimize costs and risks, optimize the technology and maximize the productivity covering such topics as:

- Wide Scale Demonstration of Integrated Solutions for European SmartGrid
- How Access to Energy and Connectivity Enable Data Mining and Analysis at the Last Frontier
- Machine Learning Techniques and Big Data in the Solar Resource Assessment and Forecasting
- Optimizing Power Flows of Residential Distributed Generation Systems
- Etc.

Join us and maximize the efficiency of the expanding solar power portfolio management!

Main market players will share their ideas and experience throughout 2-day practical case studies, in-depth discussions and interactive sessions. The expert speakers and balanced spectrum of attending companies will ensure extensive networking and business opportunities.

About BIS Group s.r.o.

We are the Business Intelligence Services company based in Europe. We believe that knowledge is the most powerful asset, especially, in the context of time and money. This inspires us to work with top professionals, global leaders and experts active in Oil & Gas, Energy, Renewable Energy, Automotive, Supply Chain and Project Management. We are an exclusive platform supporting ambitious, progressive and forward-thinking companies and empowering them with the best market practices for today's fast changing markets.
