

World Anti-Microbial Resistance Congress 2017

September 14-15, 2017

JW Marriott

Washington, DC

<https://goo.gl/mSWVer>

### **INNOVATION. COLLABORATION. COMMERCIALIZATION.**

From spurring antibiotic development and developing more accurate and efficient diagnostics solutions to improving stewardship, discussing challenges in anti-microbial resistance and formulating a global response to this pressing healthcare threat requires engagement from a broad array of players. World Anti-Microbial Resistance Congress is proud to offer a platform where these stakeholders can meet, brainstorm and dialogue.

The World Anti-Microbial Resistance Congress is the only global gathering of all of the key stakeholders including industry, international organizations, academia, government, regulators, payers, and most importantly centers of care, to address this multi-faceted public health threat.

Confirmed speakers include:

- **Susan Sharp**, President, **American Society for Microbiology (ASM)**
- **William Powderly**, President, **Infectious Diseases Society of America (IDSA)**
- **Congressman Erik Paulsen**, (MN-03), **United States House of Representatives**
- **Christopher M. Jones**, Acting Associate Deputy Assistant Secretary (Science and Data Policy), Office of the Assistant Secretary for Planning and Evaluation, **U.S. Department of Health and Human Services**
- **Joseph Larsen**, Director (Acting), Division of CBRN Medical Countermeasures, **BARDA**
- **Lauri Hicks**, Director, Office of Antibiotic Stewardship, Division of Healthcare Quality Promotion, **CDC**
- **Tyler Merkley**, Project Officer, DHHS, Program Manager, **CARB-X**
- **Pierre Meulien**, Executive Director, **Innovative Medicines Initiative (IMI)**
- **Clive Meanwell**, Chief Executive Officer, **The Medicines Company**
- **David Payne**, VP Antibacterial Discovery Performance Unit, **GSK**
