

Oxford Global Conferences are proud to present our **Inhalation & Respiratory Drug Delivery USA Congress, 12 – 13 March 2018, San Diego, USA** with our co-located **Formulation & Drug Delivery USA Congress**. Across the two days, over 200 senior industry experts will present new trends in combination product design and the future directions of inhalation drug delivery research. Further discussion will focus on the challenges of bringing respiratory products to market and innovative aerosol science, including modelling and toxicology. Presentations will also feature key case studies on the latest trends in inhalation devices, from inhaled insulin to gene therapy to overcome lung and pulmonary conditions, such as COPD, asthma and cystic fibrosis.
