

• INTRODUCTION

The **Society of Nanoscience and Nanotechnology** is a worldwide organisation serving the needs of the “Nano” community.

The very successful “International Meeting on Developments in Materials, Processes and Applications of Nanotechnology”, MPA-2007 (www.mpa-2007.org) held at the University of Ulster, UK on 15 January 2007 officially launched SNN to the international community.

• MISSION STATEMENT

“The **Society of Nanoscience and Nanotechnology** provides a platform for fostering, developing and promoting communication, education, networking, dissemination of knowledge, research and innovations in all aspects of Nanoscience and Nanotechnology”

Honorary President:

Nobel Laureate Professor Sir H. W Kroto
Florida State University, USA

President:

Dr Nasar Ali
Society of Nanoscience and Nanotechnology
E-mail: n.ali@nano-society.org

Vice Presidents:

- Professor Sam Zhang,
Nanyang Technology University, Singapore
- Professor Waqar Ahmed,
University of Ulster, UK
- Professor Andreas Oechsner,
Society of Nanoscience and Nanotechnology

• WORLDWIDE REPRESENTATION

EUROPEAN BOARD

Chairman
Professor W. Ahmed,
University of Ulster, UK

USA BOARD

Chairman
Professor E. I. Meletis,
University of Texas Arlington, USA

ASIA & REST OF WORLD BOARD

Chairman
Professor Sam Zhang,
Nanyang Technological University, Singapore

• AIMS AND OBJECTIVES

- Promote all aspects of Nanoscience and Nanotechnology
- Educate and bring awareness to people about this new and exciting field of science
- Raise, discuss and debate nano-related issues, including government policies on nanotechnology
- Offer different levels of memberships, with benefits, to people working in Nanoscience and Nanotechnology.
- Organise and manage international nano-related conferences
- Provide an effective advertising platform for companies to promote their business
- Promoting education and training through organising workshops, short educational courses, seminars, etc.
- Bringing to the front, current and most recent up-to-date scientific and technical information to the public
- Provide consultancy services to both people from academia and industry
- Alerting potential people about new job opportunities
- Publish Journals, Books, Reports and Newsletters.
- National, European and International research projects: identify, link partners and coordinate projects

• SOCIETY SERVICES

• PUBLICATIONS

- Journals

- *Journal of Nano Research*
- *International Journal of Molecular Engineering*
- *International Journal of Nanomanufacturing*
- *International Journal of Nano and Biomaterials*
- *International Journal of Nanoparticles*

- Books

- Newsletters

- Reports

• EVENTS

CONFERENCES:

- **MPA-2007**, Belfast, UK, 15 January 2007 (www.mpa-2007.org)
- **NanoSMat-2007**, Algarve, PORTUGAL 9-11 July 2007. (www.nanosmat.org)
- **DSL-2007**, Algarve, PORTUGAL, 4-6 July 2007 (www.dsl2007-algarve.de)
- **ACE-X 2007**, Algarve, PORTUGAL, 12-13 July 2007, (www.ace-x.de)
- **CNN-2008**, Singapore (July 2008) The 1st International Congress of Nanoscience & Nanotechnology.
- International Conference on Nanoparticles "NanoParticles", June 2008, Greece.
- "MPA-2008: Linking Academia to Industry", University of Cambridge, UK – January 2008.

• EDUCATION

- Seminars

- Educational Courses

- * Several short courses on nano-related subjects (see www.nanosmat.org for details)
- Workshops/training

• MEMBERSHIPS

Different levels of memberships comprising:

Professional / Fellow / Member / Corporate / Student / Associate

• ADVERTISEMENT AND SPONSORSHIPS

There will be opportunities for advertisements and sponsorship of cutting edge conferences/events and opportunities to promote businesses, new products etc.

• CONSULTANCY SERVICES

Consultancy services will include the following:

- Feasibility studies
- Government reports
- Product developments
- Marketing
- Project management
- Data/Result interpretation

• CONFERENCE MANAGEMENT

- Web development
- Venue Hire
- Conference administrative duties
- Registrations
- Conference accounts
- etc.

• EMPLOYMENT AND CAREERS

The society assists members to obtain jobs and offers informed opinions about careers and career choices. CV's, job advertisements will be posted on the society's webpage. There will be sections for jobs wanted and for jobs that are on offer.
