
Reviewers 2009–2010

In addition to the editorial team, *IJOGCT* received support from a vast number of scientists in various fields and from various organisations and countries in reviewing submitted manuscripts during the 2009–2010 period. Their suggestions and critical comments have been useful in helping me to decide on their suitability and in enhancing the quality of articles published over the past two years. In spite of their heavy schedule, these fine scientists have cooperated voluntarily with *IJOGCT* in the reviewing process and their time and efforts are greatly appreciated. It is our hope that they will continue to support *IJOGCT* by reviewing manuscripts as well as submitting articles or helping to receive manuscripts in the future.

On behalf of Inderscience, I am particularly indebted to the following people.

M.R. Riazi
