*Corporations are a conspiracy
through and through,
and so are those
who contribute thereto.*

*They do harm to human kind
by taking away its humanity,
this is clear to all
who open their minds to see.*

*Extortion is the game
that corporations play,
directed at employees
and society each day.*

*Politics and government policies
corporations are wont to control,
and they succeed in doing so
at the cost of our soul.*

Corporations are but a conspiracy

101

*Corporations are a conspiracy
through and through,
how many corporate conspiracies
do you belong to?*
