**Biographical notes:** Nicholas Tsounis is a Professor of Economics at the Department of International Trade, Technological Institute of Western Macedonia and an adjunct faculty member at the Hellenic Open University, Greece. He has a PhD in International Trade Theory since 1992 from the Department of Economics, University of Manchester, UK. His research interests are on applied international economics, economic integration and applied microeconomics. He has published 40 papers in international scientific periodicals and conferences and 15 books. He is a referee/peer reviewer for several scientific periodicals and research calls of various countries, including the EU. He is the cofounder of the ICOAE conferences (with Aspasia Vlachvei) ([www.i-coae.com](http://www.i-coae.com)) and an academic advisor to the Hellenic NARIC.

Aspasia Vlachvei is a Professor of Marketing at the Technological Institute of Western Macedonia, Greece since 2002. She holds a PhD in Agricultural Economics from the Aristotle University of Thessaloniki, since 1997. Her research interests focus on issues like competition, firm's structure, conduct and performance, international marketing strategies and entrepreneurial behaviour. She had teaching graduate and post-graduate courses on marketing and industrial organisation. She has participated in several European-funded projects. She has published in several professional journals such as *Applied Economics*, *American Journal of Agricultural Economics*, *Agricultural Economics*, *British Food Journal*, *Journal of European Economy*, *Annals of Public and Cooperative Economics* while she has more than 70 citations.

---

The special issue aims at promoting the quantitative examination of current issues in economic theory and policy analyses. Its objective is to stimulate and promote discussion concerning the econometric research of the above fields.

The target group is scholars from the international academic community and research students using econometric methods for applied economic research.

The volume includes revised and substantially extended versions of selected papers presented at the *International Conference on Applied Economics (ICOAE2014)*, held at Chania, Greece, from 3–5th July, 2014.
