**Encyclopedia and Handbook of Materials, Parts and Finishes
(Third edition)**

by: Mel Schwartz

Published 2016

by CRC Press, Taylor & Francis Group,

6000 Broken Sound Parkway NW,

Suite 300, Boca Raton, USA, 1060pp

ISBN: 978-1-4665-6747-4 (Hardcover)

This encyclopedia and handbook explains information with high quality on materials, processes, systems, parts, finishes and coatings used in the automotive, aeronautic, computer, electronic, chemical and biomedical industries, etc. This handbook describes with accuracy and relevance great number of metallic, polymeric, ceramics, composites and other materials types, namely, nanomaterials.

In order to cover these matters, this handbook presented in alphabetic order the topics (or entries).

This handbook can be used for final undergraduate engineering course (for example, materials, mechanical, physics, etc.) or as a subject on materials, parts and finishes at the postgraduate level. Also, this handbook can serve as a useful reference for academics, researchers, materials, mechanical, manufacturing and physics engineers, as well as, professionals in related industries with materials, parts and finishes.
