He is efficient in engaging and arranging international conferences to gather researchers under one roof with the objective to address the prevailing problems with targeted solutions. Whereas, vigilant to explore new dimensions in quantitative and qualitative techniques in business and management research.

The papers included in this special issue represent a selection of extended contributions presented at the 1st Scientia Academia Conference on Management, Entrepreneurship, and Social Sciences (SAC-MESS) held in Universiti Teknologi Malaysia, Kuala Lumpur, Malaysia, in April 2019. This year, 376 delegates from 25 countries presented their research papers in SAC-MESS 2019. Only selected articles related to the business continuity and strategic management after highly rigorous peer review were accepted for publication in this special issue. The main objective of the special issue is to extending the theory for global strategic risk management perspectives.

This special issue is aimed at practitioners, researchers, and postgraduate students who are engaged in developing and applying advanced principles to solve real-world problems. The special issue invited scholarly research, methodological articles, review papers, case studies, devoted to important topics falling within the scope of the special issue. The final selection of the articles after peer review can be classified into two major research streams. The first stream of the articles is focused on the ‘wealth creation in emerging markets’. The second stream of research included in this special issue is focused on the ‘risk management perspectives’. We hope readers will like the special issue in terms of its contribution to the body of knowledge.

The guest editors would like to express their gratitude to all the authors who have submitted their valuable contributions and to the numerous anonymous reviewers for their valuable comments. Besides, we would like to thank the publication staff members for their continuous support and dedication. We particularly appreciate the relentless support and encouragement granted to us by Professor Kurt J. Engemann, the Editor-in-Chief of the *International Journal of Business Continuity and Risk Management (IJBCRM)*.
