Scope of the Journal

ISSN: 1462-4613 (Print), ISSN: 1741-8003 (Online)

IJAMC is a refereed scholarly journal that provides an open forum for researchers, academics, engineers, and service providers in multimedia, particularly new media and communications protocols. It focuses on the role of new media and communication technologies as the knowledge infrastructure and the effect of representing information in various formats according to quality of service and quality of experience. IJAMC aims to provide state-of-the art knowledge in all aspects of advanced multimedia communications technology. A special emphasis is given to interdisciplinary research.

Topics covered include:

- Multimedia communications and Internet systems
- P2P protocols and network overlays
- Video/audio streaming and content delivery networks
- Distributed multimedia technology, protocols, services
- Multimedia information description, discovery, usage
- Multimedia content processing
- Haptics/tele-haptics
