

International Journal of

Biomedical Nanoscience and Nanotechnology

Editor-in-Chief:
Dr. Xudong Huang

**Visit www.inderscience.com/ijbnn
for more information and sample articles**

Scope of the Journal

ISSN: 1756-0799 (Print), ISSN: 1756-0802 (Online)

IJBNN proposes and fosters discussion on scientific and technological investigations of nanomaterials in biology and medicine, with emphasis on their biomedical implications and impacts upon the biosphere. This perspective acknowledges the complexity of biomedical nanoscience and nanotechnology as an interface between the biomedical arena and the nanosystem.

Contents:

IJBNN publishes original papers, review papers, technical reports, case studies, conference reports, management reports, book reviews, notes, commentaries, and news. Special Issues devoted to important topics in biomedical nanoscience and nanotechnology will occasionally be published.

Topics covered include:

- Synthesis and fabrication of nanomaterials for biomedical applications
- Manufacture of nanodevices for biomedical applications
- Nanobiology
- Nanotoxicology
- Nanobiochemistry
- Nanomedicine
- Nanoscale drug delivery vehicles, therapeutic and diagnostic agents
- Policy and regulations related to biomedical nanoscience and nanotechnology

Not sure if this title is the one for you?

Visit the journal homepage at www.inderscience.com/ijbnn where you can:

- View sample articles in full text HTML or PDF format
- Sign up for our free table of contents new issue alerts via email or RSS
- View editorial board details
- Find out how to submit your papers
- Find out about subscription options, in print, online or as part of a journals collection

You can order online at www.inderscienceonline.com or download an order form from www.inderscience.com/subform.

This title is part of the Healthcare and Biosciences Collection (see www.inderscience.com/hb). For library collection subscriptions or for a free institutional online trial, please contact subs@inderscience.com.
