Scope of the Journal

ISSN: 2041-868X (Print), ISSN: 2041-8698 (Online)

IJEA promotes academic debates on the status quo, aiming to bridge disciplines, theory and practice. Audit and accounting/ financial failures instigated the recent economic and financial crisis, triggering the worldwide recession. These factors require ongoing investigation to alleviate the present crises and help avert the next one. Beyond the immediate crisis, economic policies, accounting and auditing affect the stability of major institutions and even national and international economies, with the centre of gravity of the industrial sector in constant transition.

Contents:

IJEA publishes original double-blind refereed papers, Special Issues and case studies.

Topics covered include:

- Accounting/auditing in economic/financial crises
- Accounting within the global economy, climate change
- Definitions/origins of accounting
- Business theories/models, early economic theories
- Political economy, exercise of power
- International capital markets/accounting/regulations
- Reporting impact on stock market instabilities
- Accounting/auditing and money laundering's impact on economies
