INDERSCIENCE
PUBLISHERS
www.inderscience.com

Scope of the Journal

IJIIM publishes papers investigating international and intercultural issues with regard to information management. Because of cultural and national differences, information technology that works perfectly in one place may not work in another, and identical information systems may have different uses and impacts across countries. IJIIM welcomes scholarly research addressing all aspects of international and intercultural issues associated with information systems and information technology, especially emerging new technologies (e.g. artificial intelligence and robotics, big data and analytics, blockchains and fintech).

IJIIM is an Open Access-only journal and article processing charges (APCs) apply.

International Journal of
Intercultural Information Management

www.inderscience.com/ijiim
