for more information and sample articles

Scope of the Journal

ISSN: 1759-9334 (Print), ISSN: 1759-9342 (Online)

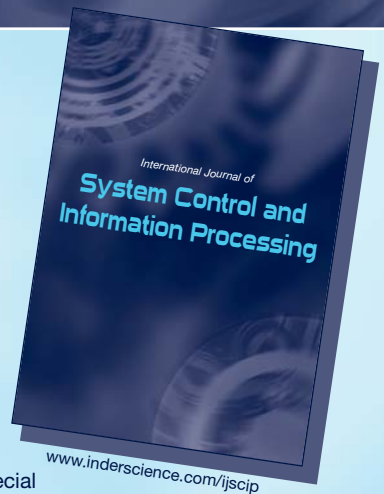

IJSCIP proposes and fosters discussion on the theory, application and design of control systems, and the implementation of information technology. It encourages contributions from both academic research and industrial technology development, and provides a forum to integrate far-reaching research insight and methodologies with new knowledge and novel techniques. IJSCIP is founded on the idea of the systematic development of modern system control with information processing.

Contents:

IJSCIP publishes original papers, review papers, technical reports, case studies, conference reports, management reports, book reviews, notes, commentaries, and news. Special issues devoted to important topics in system theory and information technology will occasionally be published.

Topics covered include:

- Static and dynamic systems modelling
- Novel and unconventional linear system modelling techniques
- Nonlinear and linear system identification
- Model calibration and validation
- Control and optimisation techniques
- Neural networks, fuzzy logic, and other heuristic techniques
- Robotics
- Software development, benchmarking tests, and applications
- Applications in economics, finance, and social studies
- Wide ranging representative application examples in other disciplines

Not sure if this title is the one for you?

Visit the journal homepage at www.inderscience.com/ijscip where you can:

- View sample articles in full text HTML or PDF format
- Sign up for our free table of contents new issue alerts via e-mail or RSS
- View editorial board details
- Find out about how to submit your papers
- Find out about subscription options, in print, online or as part of a journals collection

You can order online at www.inderscienceonline.com or download an order form from www.inderscience.com/subform.

This title is part of the Computing and Mathematics Collection (see www.inderscience.com/cm). For library collection subscriptions or for a free institutional online trial, please contact subs@inderscience.com.
