Scope of the Journal

ISSN: 1758-938X (Print), ISSN: 1758-9398 (Online)

In today's complex, global economy, the operations function is critical to business success. All organisations have an operations function that helps them run efficiently and productively. IJAOM is a peer reviewed international journal which publishes original, high-quality and cutting-edge research on all aspects of advanced operations management, aiming at bridging the gap between theory and practice with applications analysing the real situation.

Topics covered include:

- Global operations management, lean/agile operations
- Knowledge, service, demand and R&D management
- Scheduling, sequencing, vehicle routing
- Inventory management and co-ordination
- Multi-objective optimisation; TQM and six sigma practices
- Business process outsourcing
- Aggregate planning, ERP, JIT
- Performance measurement
- Cultural, environmental and implementation issues
- Logistics service performance, supply chain management
- Product planning, lot sizing, MPS, MRP
- Repetitive manufacturing and service operations
- Project and technology management, network management
- Modelling and simulation, decision analysis/making
- Comparison of operations management in different countries
