The Journal of the International Association for Vehicle Design

Scope of the Journal

ISSN: 1471-0234 (Print), ISSN: 1741-8011 (Online)

IJAP is aimed at providing a refereed and authoritative reference in the field of alternative propulsion, alternative energy generation systems and related areas.

Contents:

IJAP publishes papers which represent original research, development and applications, as well as case studies, review papers and technical reports.

Topics covered include:

- Innovations and new developments
- High-power energy generation systems
- Electric and hybrid vehicles
- Application of fuel cell technology
- 42-volt electrical systems
- Impact of high voltage on vehicle wiring architecture
- Novel/alternative energy systems/fuels
- New materials
- Economy, energy efficiency, environmental benefits
- Theoretical/conceptual studies into implementation
- Empirical studies on pilot programmes
- Sectorial studies into barriers inhibiting implementation

Not sure if this title is the one for you?

Visit the journal homepage at www.inderscience.com/ijap where you can:

- View sample articles in full text HTML or PDF format
- Sign up for our free table of contents new issue alerts via e-mail or RSS
- View editorial board details
- Find out about how to submit your papers
- Find out about subscription options, in print, online or as part of a journals collection

You can order online at www.inderscienceonline.com or download an order form from www.inderscience.com/subform.

This title is part of the Science, Engineering and Technology Collection (see www.inderscience.com/set). For library collection subscriptions or for a free institutional online trial, please contact subs@inderscience.com.
