Scope of the Journal

ISSN: 2515-9100 (Print), ISSN: 2515-9119 (Online)

IJBDA aims to be a dominant knowledge forum for cutting-edge research developments in analytics theory and applications within the context of business management. Data analytics receives considerable attention because it defines the competitive dynamics of the modern business environment. Ever-increasing research activity in data analytics underlines the importance of a global platform for sharing the latest advances in this area. IJBDA seeks to satisfy demand for significant research results in key analytics areas of primary business disciplines.

Contents:

IJBDA publishes theoretical frameworks, empirical papers, review papers, extended conference papers, case studies and book reviews. Special Issues devoted to important topics in business and data analytics research will occasionally be published.

Topics covered include:

- Big data
- Big data analytics
- Social media analytics
- Accounting analytics
- Financial analytics
- Marketing analytics
- Management analytics
- Business analytics
- Supply chain analytics
- Operations management analytics
- Descriptive, predictive and prescriptive analytics
