# Scope of the Journal

ISSN: 1757-8779 (Print), ISSN: 1757-8787 (Online)

*IJCCBS covers all topics related to the engineering of computer-based systems (CBS) employed in mission and safety-critical applications. CBS feature increasingly large, distributed and heterogeneous architectures, which complicate their design and analysis. CBS are not isolated computer systems: context awareness, environmental factors and interaction with systems of different natures have become important aspects. Furthermore, dependability, resiliency, trustworthiness, survivability and performability are some of the many essential and non-elementary properties which often need to be predicted and demonstrated for such systems.*

## Topics covered include:

- Computer dependability and high-assurance systems engineering
- Resilient cyber-physical systems (CPS), industrial Internet of Things (IIoT) and human machine systems (HMS)
- Trustworthy intelligent systems: threats to artificial intelligence and safety in autonomous systems
- Verification and validation of real-time computer systems
- Formal methods, model checking and model-based software testing
- Software fault tolerance and rejuvenation
- Multi-paradigm modelling of critical systems
- Fault injection and measurement-based analysis
- FMECA, risk assessment and hazard analysis
- Cybersecurity and blockchain within industrial control systems (ICS) and SCADA
- Operating systems and protocols for anomaly detection in distributed systems
- Dependable architectures and middleware
- Self-healing systems and reconfigurable hardware
- Business continuity and disaster recovery
- Relevant case studies and applications: smart cities, Industry 4.0, intelligent transportation, etc.

## Not sure if this title is the one for you?

Visit the journal homepage at [www.inderscience.com/ijccbs](http://www.inderscience.com/ijccbs) where you can:

- View sample articles in full text HTML or PDF format
- Sign up for our free table of contents new issue alerts via e-mail or RSS
- View editorial board details
- Find out how to submit your papers
- Find out about subscription options, in print, online or as part of a journals collection

You can order online at [www.inderscienceonline.com](http://www.inderscienceonline.com) or download an order form from [www.inderscience.com/subform](http://www.inderscience.com/subform).

This title is part of the Computing and Mathematics Collection (see [www.inderscience.com/cm](http://www.inderscience.com/cm)). For library collection subscriptions or for a free institutional online trial, please contact [subs@inderscience.com](mailto:subs@inderscience.com).
