Scope of the Journal

IJCIStudies focuses on experimental, theoretical and application aspects of computational intelligence. The main goal of the journal is to provide an international forum for all scientists and engineers engaged in research and development in the various fields of computational intelligence.

Contents:
IJCIStudies publishes research papers and other related scientific news related to computational intelligence. Special issues will be published occasionally.

International Journal of
Computational Intelligence Studies

www.inderscience.com/ijcistudies

Topics covered include:

- Advanced theory of computational intelligence
- Advanced biologically-inspired computational intelligence
- Advanced computational intelligence in image processing
- Computational intelligence in signal processing
- Advanced evolutionary computation

- Advanced distributed intelligent systems
- Advanced neural systems and human-like agents
- Advanced statistical learning theory
- Computational intelligence in knowledge discovery
- Related subjects

Not sure if this title is the one for you?

Visit the journal homepage at **www.inderscience.com/ijcistudies** where you can:

- View sample articles in full text HTML or PDF format
- Sign up for our free table of contents new issue alerts via e-mail or RSS
- View editorial board details
- Find out how to submit your papers
- Find out about subscription options, in print, online or as part of a journals collection

You can order online at **www.inderscienceonline.com** or download an order form from **www.inderscience.com/subform.**

This title is part of the Computing and Mathematics Collection (see **www.inderscience.com/cm**). For library collection subscriptions or for a free institutional online trial, please contact **subs@inderscience.com.**
