Scope of the Journal

ISSN: 2047-9050 (Print), ISSN: 2047-9069 (Online)

IJCMME publishes original research contributions on computational microbiology, microbial bioinformatics, and medical ecology. It also covers all aspects of computational microbial ecology. The journal particularly welcomes contributions from studies in the Human Microbiome Project (HMP) and its ramifications in personalised medicine, and considers human microbiome research as a vitally important field of medical ecology, beyond the scope which the eminent microbiologist René Dubos provided regarding the subject several decades ago.

Topics covered include:

- Computational microbial genomics, metagenomics and pangenomics
- Computational microbial metabolomics and proteomics
- Computational microbial bioinformatics
- Computational microbial system biology
- Computational intelligence approaches to microbiology and medicine
- Computational simulation of microbial gene mutation and evolution
- Computational and mathematical modelling of microbial evolution
- Computational and mathematical modelling for biomedical risk analysis
- Biostatistical approaches to computational microbiology and bioinformatics
- Complexity science approaches to microbiology and medicine
- Disease gene discovery
- Medical ecology and microbial system ecology
- Human microbiome
- Personalised medicine
- Biological/ecological networks of microbes

Not sure if this title is the one for you?

Visit the journal homepage at www.inderscience.com/ijcmme where you can:

- Read about the journal's aim, scope and readership
- View editorial board details
- Find out about calls for papers and how to submit
- Find out about subscription options, in print, online or as part of a journals collection

You can order online at www.inderscienceonline.com or download an order form from www.inderscience.com/subform.

This title is part of the Computing and Mathematics Collection (see www.inderscience.com/cm). For library collection subscriptions or for a free institutional online trial, please contact subs@inderscience.com.
