# Scope of the Journal

ISSN: 1756-2554 (Print), ISSN: 1756-2562 (Online)

*IJDET provides an authoritative source of reference and international forum for people who want to find and understand information about digital enterprise technology. It covers the areas of enterprise theory, methods, technologies, and corresponding information and knowledge management issues. It aims to highlight integrated solutions related to both manufacturing and service enterprises, particularly in order to solve the new challenges brought about through digital technology in these areas. Contributions that deal with both academic research and industrial practices are included.*

## Topics covered include:

- Mathematical models, computing methods
- Collaboration, competition, mobility
- Infrastructure, organisational/structural issues
- Models/simulation/industrial case verifications
- Standards/specifications, customer requirements, recycling
- Digitalisation in product design/manufacturing/measuring
- Product life-cycle services/maintenance, value chain issues
- Product service systems, decision-making systems
- Knowledge management
- Workflow/project/supply chain/quality management
- CAD/CAE/CAM/PLM, etc, digital hardware, e-technologies
- Service/manufacturing-oriented digital enterprises, integration
- Enterprise networks/dynamics/clusters, extended/virtual organisations
- Globalisation, mobility
- Case studies
