Scope of the Journal

ISSN: 2048-7312 (Print), ISSN: 2048-7320 (Online)

IJEBB is a peer-reviewed journal offering authors and readers opportunities to share the latest concepts and developments in the increasingly-significant field of ecological bioscience and biotechnology, access current case studies in ecological engineering and explore the market potential for ecological biotechnologies. It covers applications of ecological technology and scientific discoveries to the natural environment, human habitation and environmental sustainability. IJEBB provides a key forum to bring together state-of-the-art research of interest to scientists, engineers and policymakers in related fields worldwide.

Topics covered include:

- Biodiversity and ecosystems function
- Ecological restoration and management
- Ecotoxicology and environmental safety
- Ecological impact of toxic pollutants
- Ecosystem bioscience and response to global changes
- Microbiology ecology
- Environmental microbiology
- Interaction between microbes, plants and sediments
- Ecology and environmental health
- Ecological remediation
- Fate and transport of pollutants in the environment
- Watershed ecology
- Agroecology
- Wetlands
- Environment and sustainable development

Not sure if this title is the one for you?

Visit the journal homepage at www.inderscience.com/ijebb where you can:

- Read about the journal's aim, scope and readership
- View editorial board details
- Find out about calls for papers and how to submit
- Find out about subscription options, in print, online or as part of a journals collection

You can order online at www.inderscienceonline.com or download an order form from www.inderscience.com/subform.
