# Scope of the Journal

ISSN: 1759-5673 (Print), ISSN: 1759-5681 (Online)

*IJEED primarily publishes papers promoting advancements in education economics at all levels. It highlights the links between education and the development of individuals, societies and economies. IJEED is particularly interested in international comparisons of educational institutions and outcomes in global economies. Emphasis on studies from large economies such as the USA, Canada and the EU distinguishes the journal from others with more general content. Theoretical and empirical analyses in both microeconomics and macroeconomics receive equal attention.*

## Topics covered include:

- Administration, leadership and entrepreneurship in education
- Economic education and the teaching of economics
- Higher education: human rights and responsiveness to the demands of society
- Supply of education: education quality, measurement and issues
