Scope of the Journal

ISSN: 1466-2132 (Print), ISSN: 1741-511X (Online)

IJETM is an authoritative source of information in the field of environmental technology, policy and management. It deals with the shorter term, covering engineering, technical, policy and management solutions. It is one of three key journals which together offer comprehensive coverage of key environmental issues: IJEP focuses on early and medium-term challenges involving scientific prediction, modelling and assessment, and IJGEnvl focuses on longer-term environmental scenarios, ecological economics, climate change and biodiversity.

Topics covered include:

- Cleaner and zero emission technologies
- Technological developments for environmental improvements, pollution control and economic development
- New industrial process methods, pollution control improvements and economic development
- Industry and energy technologies for sustainable product development and sustainable production
- Eco-design and eco-efficiency
- Ecologically driven manufacturing and services
- Concepts of environmental engineering and protection
- European and international law, regulations and technological standards
- Incentives for innovation in environmental improvements
- International comparison of welfare and environmental enhancement of cutting-edge technologies
- Investment and abatement technologies
- Case studies and evaluation of emerging environmental technologies
- Environmental audit

Not sure if this title is the one for you?

Visit the journal homepage at www.inderscience.com/ijetm where you can:

- View sample articles in full text HTML or PDF format
- Sign up for our free table of contents new issue alerts via e-mail or RSS
- View editorial board details
- Find out how to submit your papers
- Find out about subscription options, in print, online or as part of a journals collection
