International Journal of
**Energy Technology
and Policy**

Scope of the Journal

ISSN: 1472-8923 (Print), ISSN: 1741-508X (Online)

IJETP is a vehicle to provide a refereed and authoritative source of information in the field of energy technology and policy.

Objectives:

The objective of the IJETP is to further the development of this dynamic and innovative topic: to disseminate knowledge and provide a global forum for professionals in the field to learn from each other's work. IJETP also aims to establish channels of communication between relevant academics and research experts, policy makers and executives in industry, commerce and investment institutions.

Readership:

Professionals, academics, researchers and policy makers.

Contents:

The IJETP publishes original papers, review papers, case studies, conference reports, relevant technology and management reports, and news, book reviews and notes. Commentaries on papers and reports published in the IJETP are encouraged.

Topics covered include:

- Innovation and new development
- Energy efficiency/saving, economics, security, risk
- Cleaner/renewable energy technologies
- Alternative energy technologies/sources
- Environmental planning
- Energy R&D strategies/policies
- Energy foresight and scenarios
- Experience curves, integrated design
- Emerging generic technologies
- National energy [research] policies
- Energy system analysis, planning
- Energy systems and services
- Energy transmission/distribution
- Distributed generation technologies
- Rural/remote electrification and energy supply

Not sure if this title is the one for you?
