Scope of the Journal

ISSN: 1479-4853 (Print), ISSN: 1479-4861 (Online)

Strategy management involves understanding the forces and causes that explain performance differences between organisations, a result of different stocks of knowledge-based resources and capabilities. The intellectual capital literature focuses on the measurement of firms' knowledge base. It also addresses building guidelines for the development of "intellectual capital accounts". IJLIC covers the latest advances on organisational learning, knowledge management and intellectual capital measuring and reporting. It promotes ways in which these impact on firms' competitive advantage in the New Economy.

Topics covered include:

- Intangible resources
- Competitive strategy
- Knowledge-based view of the firm
- Human/relational/social/organisational capital
- Human resource management
- Intellectual capital reporting
- Organisational learning
- Social networks
- Innovation and knowledge management
- Innovation and leadership
- Technology and innovation management
- Dynamic capabilities and routines
- Digital economy and digital transformation
- Green economy and green intellectual capital
- Sustainable development goals
